# Evolutionary View of Human Beings

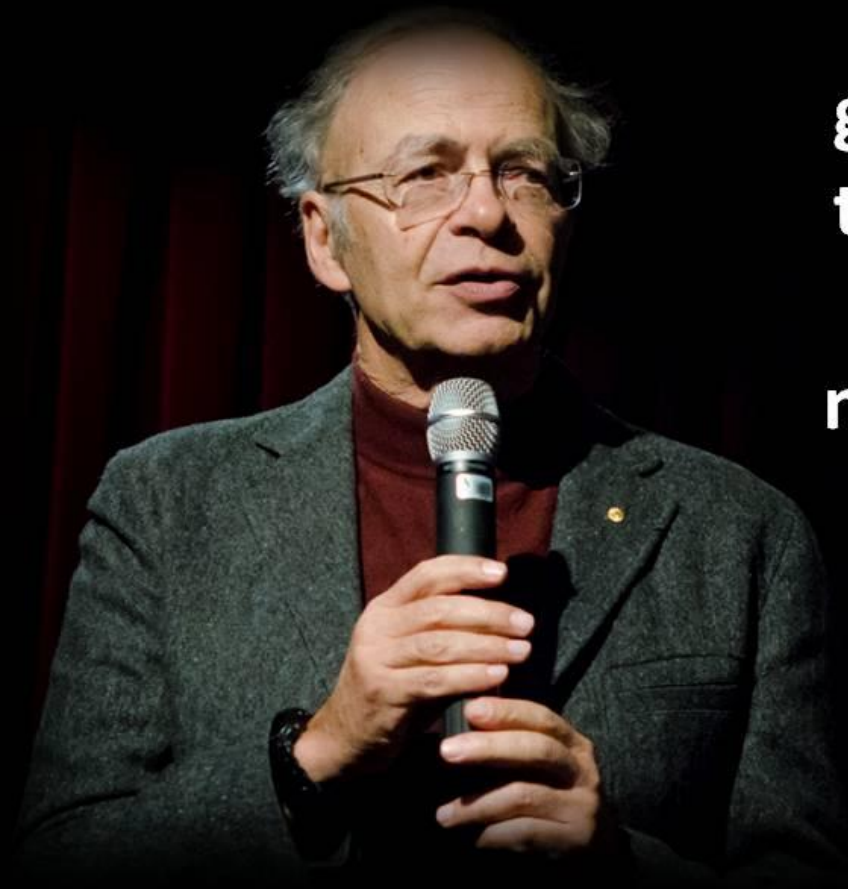

**Human Beings  
Are Devalued!**

**“With respect to those meanings of “human” that are relevant to the morality of abortion, any fetus is less human than an adult pig”**

**— Richard Dawkins (@RichardDawkins)  
March 13, 2013**

**“Human babies are not born self-aware, or capable of grasping that they exist over time. They are not persons”; therefore, “the life of a newborn is of less value than the life of a pig, a dog, or a chimpanzee.”**

**"... these two words [birth control] sum up our whole philosophy... It means the release and cultivation of the better elements in our society, and the gradual suppression, elimination and eventual extinction, of defective stocks -- those human weeds which threaten the blooming of the finest flowers of American civilization."**

A young woman with long, dark, wavy hair is shown from the chest up. She is looking directly at the camera with a gentle smile. She is wearing a white top, and a grey backpack strap with the word "thuc" is visible on her right shoulder. The background is a blurred outdoor scene with greenery and other people.

A glowing blue human brain is the central focus, set against a dark blue background. The brain is depicted with realistic gyri and sulci, but it has a luminous, ethereal quality. Numerous bright white lightning bolts, resembling electrical discharges, are shown striking the brain from various angles. Some bolts are thick and bright, while others are thin and wispy. The overall effect is one of intense energy and complex neural activity.
