

O R I G I N S

We Are Family *Genesis 10*

1. We are family.

2. Application:

- Accurately handle God's Word.
- Make your first thought..."family."
- Get to know one person's story.
- Get on mission together.

MY APPLICATION

Use the following questions this week to reflect on what it would mean to align yourself with the truths taught in Scripture. Each question is meant for both personal reflection and as a catalyst for discussion with your family, friends, or small group.

1. As you've read the Bible, has your tendency been to skip chapters like Genesis 10? Why or why not?
2. Read the chapter again with your group. What stands out to you? What do you find interesting?
3. God wants us to see from Genesis 10 that we all come from the same family of Noah. Is this a new thought for you? How does this truth change how we view our family tree?
4. In the message we talked about how Genesis 9 and 10 have been twisted to justify the horrors of slavery and racism. How did hearing Darnell's story during the message give you understanding and empathy? What stood out to you in his story?
5. Look back over the four application points. Talk as a group about how you are going to put this message into practice this week. Commit to report back when your group meets next week with what God did through you.

MEMORY VERSE

"These are the clans of the sons of Noah, according to their genealogies, in their nations, and from these the nations spread abroad on the earth after the flood."

Genesis 10:32
